

HDP6600

ADVANCED, FAST, EFFICIENT & SECURE CARD PRINTING

Fast, innovative and feature-rich — the **HID® FARGO® HDP6600** sets the new customer demanded standard in retransfer printing.

Sharper, crisper images and text in true 600 dpi

FASTER IS BETTER

First Card Out in Under 60 Seconds With patent pending iON™ “instant on” technology, the unit is ready to produce high-quality cards and IDs in under 60 seconds — virtually eliminating that all-too-familiar long wait for the first card.

Print Up to 230 Cards Per Hour Simultaneous print and retransfer enable unprecedented speeds, maximizing productivity.

HIGHEST PROTECTION, LESS WASTE

Optional wasteless lamination provides the largest patch coverage in the industry while eliminating carrier film and take-up core waste.

VERSATILE CARD APPLICATIONS

Add optional contact and/or contactless card encoding to access a variety of applications:

- **Contactless door entry**
- **Cashless vending**
- **Time & attendance**
- **Logical access to computers/networks**

NO-COST DURABILITY WITH MULTIPASS

Additional HDP film layers may be optionally applied with the printer’s inclusive multipass function — providing the enhanced protection that high-use IDs and cards demand.

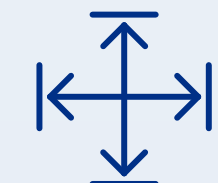

Earth-Friendly

GreenCircle® Certified for efficient energy consumption and support for eco-friendly wasteless lamination.

Highly Secure

Inclusive resin scramble data protection hides any information printed with a resin panel while standard password protection, AES 256 data encryption and optional locks provide additional peace of mind.

Modular and Scalable

Meeting card application needs today and in the future, the HDP6600’s flexible architecture lets you expand or reduce production instantly with add-on dual-sided printing, encoding and lamination.
